

Who

Seinabo Sey

Who do you think you are x3
Who do you wanna to be
Who do you think you are x3Dawn is disappointing
The colours will deceive you
Endings are never happy
Nothing comes without pain
Believing in love is in vain
Nothing stays the same
Hard work?
I said hard work?
This is the pace you've been given
Anything else is forbidden
Product of your past
New things never last
You are the sense of your father?? like your mother
This right here has been tested
People? for this methodWho do you think you are x3
Who do you wanna to be
Who do you think you are x3????
Make it your best friend
This is all that we have
Everything will end
No use in you asking
Everything has been answered
All conclusions are drawn
That's just the way it is
What have you done to deserve that
You can't change a thing
The sooner that you learn that
The better for all of us
What have we done to deserve that
You can't change a thing
The sooner that you learn that
The better for all of usWho do you think you are x3
Who do you wanna to be
Who do you think you are x3We don't care what you say anyway
Guess what we don't care what you say anyway
