Terrible Angels

Charlotte Gainsbourg

My head is pending
My ...is dry
But i . i wait and see it the way

...

Holly holly change into me and something else.

Inside out Inside out

Fear and fear, freedom going down

Is just a.

Friction for me now.

Fear and fear, .just pull me down

Is just a . friction for me now

I want release from isolation

I want release from

I want release, i want release

Terrible angels

Different sorrows

...

They will walk with me again

...

Why could end.

My .my protective my .

I don't wanna .

La la la la la

Feel feel feel

Please don't call me now

Is just a.

Reaching for me now

I want release .isolation

.good intentions, poison wine and i ain't this .sex of

I ain't .making.

Change change change
