

# Fire (feat. Lune)

Adrian Lux

When you feel the fire taking over  
Let it make your feelings be evolving  
We're too young  
Your heart, whenever goes  
You're too young Your heart, will never leave you  
When you feel the fire taking over  
Let it make your feelings be evolving  
Please let your heart breath in...  
When you feel the fire taking over  
Let it make your feelings be evolving
