

That Good

Snoop Dogg & Wiz Khalifa

I'm smoking everywhere I go
(No stick, no seeds, just Al Green)
I always gotta keep one rolled
(I keep that, need that, got that)
I'm rolling every gram I own
(that purp, that bomb, that kush)
don't gotta understand, they know
I smoke that, fire that, good that good that Concentrated, everyday I'm faded
tree's prepared and properly cultivated
I nursed 'em, sprayed down, no chemicals
just me and my buddy, ya hear me now
never treat ya wrong, to each his own
Snoop and Wiz the new Cheech and Chong
we up in smoke, making street schemes
smoking sticky green, having sweet dreams
break it down, put it in the zig zag
and pull the top back and let the ass drag
hit the switch, quickest way to get a bitch
executive branch, get a whiff of this
black car, sack a dank
high school n-gga what the f-ck you think
I'm passing all my classes with flying colors
and everyday I'm high as a muthaf-cker
I'm smoking everywhere I go
(No stick, no seeds, just Al Green)
I always gotta keep one rolled
(I keep that, need that, got that)
I'm rolling every gram I own
(that purp, that bomb, that kush)
don't gotta understand, they know
I smoke that, fire that, good that good that Sun roof open, smoking while I'm rolling
my bitches only notice it if its potent
bottle of Perignon, we can go kick it by the ocean
get in between your legs
join roaches and ashes all in your bed
you calling her babe, she calling me instead
cause I put that game all in her hair
she saw the crib, she know that I'm balling
when he aint have nothing he used to stall em
now I with the boss dogg, all the bad hoes want him
and my pockets on swole, I'm talking Rick Ross big
and now when we shop we don't care what the cost is

rolling up good, smoking that bomb shit
blow a whole OZ, n-gga thats boss shit
now she all f-ck her man, rubberbands in my pocket
getting money, going hard for my profit
bad bitch keep the joint stuffed like stockings
young n-gga getting bread, why knock it
I'm smoking everywhere I go
(No stick, no seeds, just Al Green)
I always gotta keep one rolled
(I keep that, need that, got that)
I'm rolling every gram I own
(that purp, that bomb, that kush)
don't gotta understand, they know
I smoke that, fire that, good that good that
In highschool, we do just like we like to
we cordially invite you
now roll up get high to it
we welcome you to highschool
we do just like we like to
we cordially invite you
now roll up get high to it
get high to it
I'm smoking everywhere I go
(No stick, no seeds, just Al Green)
I always gotta keep one rolled
(I keep that, need that, got that)
I'm rolling every gram I own
(that purp, that bomb, that kush)
don't gotta understand, they know
I smoke that, fire that, good that good that
