

So Easy

Phillip Phillips

Like a fall leaf from a tall tree landing on the grass
Like the white sand turns a clock hand in an hourglass
You're the reason I believe in something I don't know You make it so, you make it so
You make it so easy
This letting go is so beautiful
Cause you make it so easy to fall so hard Like a ocean pulls the tide in just to hold it close
Like the rain pour in a rainstorm makes the flowers grow
You're the reason I believe in something I don't know You make it so, you make it so
You make it so easy
This letting go is so beautiful
Cause you make it so easy to fall so hard You make it so, you make it so
You make it so easy
You make it so, You make it so
You make it so easy
This letting go is so beautiful
Cause you make it so easy
To fall so hard
Whoa
You're the reason I believe in something I don't know
