

Brave Heart

Hilary Duff

Each and every day it's the same old game
And I play along
Round and round we go
But we never know When we should get off
And we both try the best that's life and now
Come to an end
The tears have dried, made up my mind And I'm ready to begin
Gotta let go
Even though I'm scared to death
I'm here alone, but still got one thing left I got a brave heart
I got a brave heart
I got a brave heart
I guess the safer play would've been to stay
Just make your world
But the other side is calling me tonight even though it hurts
And we both try the best that's life and now
Come to an end The tears have dried, made up my mind
And I'm ready to begin
Gotta let go
Even though I'm scared to death I'm here alone, but still got one thing left
I got a brave heart
I got a brave heart
I got a brave heart
I don't know, know, where we're going
I can't breath, breath, all fading starts I don't know, know, where we're heading
Just know, know, you're stealing my heart
I wouldn't change a single page of my history
I'm gonna keep all the welters you wrote to me
Each and every day it's the same old game
And I play alone
Round and round we go
But we never know
When we should get off
Gotta let go
Even though I'm scared to death
I'm here alone, but still got one thing left
I got a brave heart
I got a brave heart
I got a brave heart
