

# Best Love

Yuna

I need to know about this, babe  
'Cause I can't sleep at night  
The conversation that we had  
Something just feels right I know we've known each other a long time  
But I've never seen you in this light  
I can see the future in your eyes  
Longing for a love and I realize And you are the one I want (you are, you are)  
The one I'm thinking of (you are, you are)  
I think that we can have more (you are, you are)  
We'll have what we deserve (you are)  
Best kind of love  
And you know that I want it  
Best kind of love  
Best kind, best kind  
Best kind of love  
And you know  
And you know that I've got it  
Best kind of love  
You're the best kind of love I guess it's not too much to ask  
If you feel the same  
We can build something that will last  
No more playing games I know we've known each other a long time  
I never thought I'd wanna make you mine  
Call me before you sleep at night  
I know you have me lingering in your mind  
You are the one I want (you are, you are)  
The one I'm thinking of (you are, you are)  
I think that we can have more (you are, you are)  
We'll have what we deserve (you are) Best kind of love  
And you know that I want it  
Best kind of love  
You're the best kind, best kind  
Best kind of love  
And you know  
And you know that I've got it  
Best kind of love  
You're the best kind of love I want it, I want it  
I want it, I want it  
I want it, I want it  
I want it, I want it  
I want it, I want it  
I want it, I want it

I want it, I want it I know we've known each other a long time  
But I've never seen you in this light  
Call me right before you sleep at night  
(Call me right before you sleep at night)  
I know you've got me lingering in your mind Oh, you are the one I want (you are, you are)  
The one I'm thinking of (thinking of- you are, you are)  
I think that we can have more (you are, you are)  
We'll have what we deserve (you are) Best kind of love  
And you know that I want it  
Best kind of love  
Best kind, the best kind  
Best kind of love  
And you know  
And you know that I need it  
Best kind of love  
You're the best kind of love
