

Yes My Love

Johnny Cooper

Sit right back, I've got something to say to you.
I love your style and the way that you move.
And the stars all fall in your direction.
you giving me all of your affection.
I can't seem to get enough.(Chorus)
Cause the girls out there just can't compare to the
types of things that you do
I hear ya laying it down in the club up town, I wanna know if it's true.
And the boys all say. just stay away.
but I just wanna be standing right here next to you!
Yes yes my love, yes my love, yes yes my love, yes my love
(Verse 2)
Ha I just wanna get you on the floor, come here girl
Show me something that I've never seen before.
And the stars all fall in your direction.
you giving me all of your affection.
Stop.let's turn it upREPEAT CHORUS
