

# Feel Like Fame

## Four Letter Lie

I'm watching her name up on my screen  
Celebrity, she means everything to me  
I wanna hear her voice aloud  
Wanna hear her voice Well, I'm curious how you manage to look so good  
For those cameras  
Wearing a killer smile to kill me  
I swear she looks straight to me  
From the Hollywood scene  
I can't stand too close to the screen Everywhere I go, she's always on my mind  
I'm watching her name up on my screen  
Celebrity, she means everything to me  
I wanna hear her voice aloud  
Wanna hear her voice out loud  
When she wants to get down  
We shout it out loud  
I wanna hear her voice aloud Well, I'm curious how do you t-t-turn me on  
Through those cameras  
She's got a killer smile to kill me. Everywhere I go, she's always on my mind I'm watching her  
name up on my screen  
Celebrity, she means everything to me  
I wanna hear her voice aloud  
Wanna hear her voice out loud  
When she wants to get down  
We shout it out loud  
I wanna hear her voice aloud  
There must be a way, a way inside her heart. Name up on my screen.  
Celebrity, she means everything to me. I'm watching her name up on my screen  
Celebrity, she means everything to me  
I wanna hear her voice aloud.  
I'm watching her name up on my screen.  
Celebrity, she means everything to me  
I wanna hear her voice aloud  
Wanna hear her voice out loud  
Celebrity, I wanna hear her voice aloud.
