

Counterflow (Vavinchi meets Mad Dim Remix)

Viktoria Modesta

Does you really feels no limits?
as you up when your down
when the whole world it's watching now
you and I will collide in a red light
can you rise, rise
can spit in enormity
Hand to hand
you better run, you better run
who's stop that now
Be the counterflow
Sister of a pain
for another world, for another world
take a minute, take a minute
just to feel it, just to feel it
Now you want it, now you need it
Sacrifice yourself in a new show
In the counterflow (Counterflow)
(Counterflow)
Like a build that you know
Like a bullet
To the head, to the chest
I will own it (Oh-Uh)
That's the moment you know
you can brake it
Can you rise, rise
Keep the often record
Hand to hand
You better run, you better run
Hand to hand
You better run, you better run, run, run
Who's stop that now
Be the counterflow
Sister of a pain
For another world, for another world
Take a minute, Take a minute
Just to feel it, just to feel it
Now you want it, now you need it
Sacrifice yourself in a new show
In the counterflow (Counterflow)
In the counterflow (Counterflow)
Who's stop that now
Be the counterflow

Sister of a pain
For another world, for another world
Take a minute, take a minute
Just to feel it, just to feel it
Now you want it, now you need it
Sacrifice yourself in a new show
In the Counterflow
