

# Walking Like Giants

## Stars Go Dim

Life seems like a uphill battle  
Like more than you can handle  
But we have a hope that it's real  
And there's power that lives inside us  
We were made with hearts like lions  
We're not given a spirit of fear  
His strength inside us, We are fighters  
Made to rise, With faith alive  
We're standing Ten-Foot high We're not giving up, when struggles come  
There're not big enough, oohh oohh  
There's no stopping us, we're fearless inside  
We're walking like giants  
We're not giving up, with every step  
He's still here with us, oohh oohh  
Whatever comes our way  
We'll be walking like giants  
Walking like giants  
It might seem like the biggest mountains  
Got you surrounded,  
But there's a God above it all  
No fear, we keep moving forward  
Ya, we're marching on like soldiers  
No such thing as impossible We're not giving up, when struggles come  
There're not big enough, oohh oohh  
There's no stopping us, we're fearless inside  
We're walking like giants  
We're not giving up, with every step  
He's still here with us, oohh oohh  
Whatever comes our way  
We'll be walking like giants  
Walking like giants Whatever may come, we're rising above  
Through fire or rain, nothings stopping us 2x  
We're not giving up, when struggles come  
There're not big enough, oohh oohh  
There's no stopping us, we're fearless inside  
We're walking like giants  
We're not giving up, with every step  
He's still here with us, oohh oohh  
Whatever comes our way  
We'll be walking like giants  
Walking like giants Oooohhhh, Oooohhh Whatever may come, we're rising above

Through fire or rain, nothings stopping us 2x
