

# Held Me Down

## NAV & Metro Boomin

Metro Boomin want some more, nigga I've been running from my problems  
I've been running from you  
Girl, all this money, all these things don't feel the same without you  
I can't trust these others girls, I got a feeling 'bout you  
Even though I'm doing well, I lose my touch without you  
I hate to hurt you, cameras showing everything that I do  
Piece of shit, I got a side bitch and I lie to her too  
My momma asking 'bout you, and I finna lie to her too  
I blew up and got lost in a sauce, and changed up on you  
But when nobody else was around  
She always held me down  
She always held me down  
She always held me down  
Way before I found my sound  
She kept my feet on the ground  
She always held me down  
She always held me down I've been living life on the road  
Feeling lonely, heart is turning cold  
I be covered up in sold out clothes  
Feeling empty, doing sold out shows  
Using drugs to cover up my emotions (abusing drugs)  
Every time you see me, I'm either rolling or smoking (I'm rollin' up)  
Everybody love me now, only you make me feel important  
When we settle down, everything you buy gon' be imported  
All of your friends, they told you, "Don't fuck with a artist"  
When I tell you what my body count is, that gon hit you the hardest  
I've been running from my problems  
I've been running from you  
Girl, all this money, all these things don't feel the same without you  
I can't trust these others girls, I got a feeling 'bout you  
Even though I'm doing well, I lose my touch without you  
I hate to hurt you, cameras showing everything that I do  
Piece of shit, I got a side bitch and I lie to her too  
My momma asking 'bout you, and I finna lie to her too  
I blew up and got lost in a sauce, and changed up on you But when nobody else was around  
She always held me down  
She always held me down  
She always held me down  
Way before I found my sound  
She kept my feet on the ground  
She always held me down  
She always held me down Whenever they took my music for a joke

Whenever I ever had my back against the ropes  
When I was down and I had no hope  
She was always down from the get-go  
She was always down, stay ten toes  
Lost my girl, found a thousand hoes  
She a good girl, don't work on a pole  
If I need it, she would stash my pole  
She pay for all the dinners when I was broke  
If I needed, she would hide my dope  
Girl, I know you still wearing my clothes  
I know you think about me when you're alone  
I know you think about texting my phone  
I wish you would give in and just let go  
I'm happy I found out you was at my show  
You're more than my girl  
You're part of my soul I've been running from my problems  
I've been running from you  
Girl, all this money, all these things don't feel the same without you  
I can't trust these others girls, I got a feeling 'bout you  
Even though I'm doing well, I lose my touch without you  
I hate to hurt you, cameras showing everything that I do  
Piece of shit, I got a side bitch and I lie to her too  
My momma asking 'bout you, and I finna lie to her too  
I blew up and got lost in a sauce, and changed up on you But when nobody else was around  
She always held me down  
She always held me down  
She always held me down  
Way before I found my sound  
She kept my feet on the ground  
She always held me down  
She always held me down
