

# Dead Wreckoning

## Aborted

Enter the archaic abattoir...Exiled to a pernicious wasteland  
My gray matter a thirst  
Compelled to restore my deathcamp  
Love for surgery in meA man made predator revealed amidst  
The last moiety of humanity in me is stripped  
Feeding of a defunct social mess  
Enumerate the dead left for you to exploreAbhorrent studies set forth in the abattoir  
Intrinsic desecration of a fetid cadaver  
Hormones the catalyst of this orgy of the damned  
A murderous contempt for science is disclosed  
Who am I when push comes to shove?  
A madman investing exanimate matters  
To descry anatomical enigmae?  
Or to deride what he has fatheredWho am I when push comes to shove?  
A madman investing exanimate matters  
To descry anatomical enigmae?  
Or to deride what he has fatheredAbhorrent studies set forth in the abattoir  
Intrinsic desecration until death ensues  
Nurture the pain which relieves defecation  
Degradation of humanity is now exhaledExiled to a pernicious wasteland  
My mesogenic gray matter, a thirst compelled  
To restore my deathcamp  
An illusive love for surgery in me, in me  
A man-made predator revealed amidst  
The last moiety of humanity in me is stripped, is stripped  
Feeding of a defunct social mess  
Enumerate the dead left for you to enjoy
