

# Souls of Black

## Testament

Can't you see  
That in the world we live in  
Political lies  
Are just corporate decisions  
They'll take away  
All the hopes, not their promises  
They'll put an end to this  
Land of the livin' Look at the lost souls  
They seem so black  
Look at the lost souls  
Souls of black  
They got control  
Of the heart of a nation  
Their social bribes  
Seem so graciously  
As time goes by  
'Cause time as you came see  
Will slowly die now for you and me Look at the lost souls  
They seem so black  
Look at the lost souls  
Souls of black So put an end  
To this idolization  
Antagonizing so commonly  
Open your eyes  
'Cause the lie's there so plain to see  
Life goes on  
There's no guarantees  
Look at the lost souls  
They seem so black  
Look at the lost souls  
Souls of black  
They're bleeding so black
