

# Call My Name

## Ghostface Killah

I grace the block with my presence  
All praises do. Now the neighborhood like "Tony we love you"  
It's all good and staying at my brother Mick's house  
Made his house my home. Enter the zone  
Buried him in front law. Put up a Tombstone  
I seen Bammy. That's my nickname for Bamboo  
She like "what up Tone? How are you?"  
Can we speak? I got some explaining to do"  
See your absence made me forget who you were  
And I love you for you. I need a second chance, boo  
I say it's all good. 36 seasons was long  
You got weak but I'm here to help weather the storm  
You gotta just think with me. Shit'll get stinky  
I gotta clean the whole motherfucking city  
The government's greedy flushing drugs down these streets  
Thugs out here criminals dressed as police  
Call my name when you need me  
I'll be there quick fast in a hurry  
No need to worry  
The all mighty GFK the master venger  
New York??? and??? city defenderAy yo, these streets is political,???

The government got you on strike by the visual  
The TV the crack epidemic. The real drug dealers, fake cops is true apologeticHow would you  
like to be in the court of law? How would you like for me to put a bullet in your head as large  
as a baseball?  
Call my name when you need me  
I'll be there quick fast in a hurry  
No need to worry  
The all mighty GFK the master venger  
New York??? and??? city defender
