

# Hunny Girl

## Pepper

On the speaker box, bass and drum.  
She moves her hips, the night is young.  
And every eye, inside the club.  
Watch you dance, want your love.  
And you could have, anyone.  
But my loving, is number one.  
So here I come, here I come.

Come on little girl if you wanna get some! Are you really just a run-around girl?  
(drinking, dancing, yes its working)

I really wish you'd come around girl,  
Because I'm the one who gives you so much (so much)  
You're giving me the run-around girl.  
(Always leaving before the morning)

I really hope you come back girl,  
I'll be the one that gives you so much.

Hunny girl! Hunny girl...  
Sweet down low, hard to touch.  
She likes it all, all too much.  
So there she goes, set her free.

And if its love, she comes back to me. Because I'll keep you laughing when things don't turn out,  
I wanna be the one you think about.

So here I come, here I come.

Come on little baby if you wanna get some! Are you really just a run-around girl?  
(drinking, dancing, yes its working)

I really wish you'd come around girl,  
Because I'm the one who gives you so much (so much)  
You're giving me the run-around girl.  
(Always leaving before the morning)

I really hope you come back girl,  
I'll be the one that gives you so much.

Hunny girl!

All that she could say...

I can't keep tied down, tied down this way.

So I, suck in, your hunny girl! Are you really just a run-around girl?  
(drinking, dancing, yes its working)

I really hope you come around girl,  
Because I'm the one who gives you so much. Are you really just a run-around girl?  
(drinking, dancing, yes its working)

I really hope you come around girl,  
Because I'm the one who gives you so much. You're giving me the run-around girl,  
(Always leaving before the morning!)

I really hope you come around girl,

I'll be the one who gives you so much.  
Hunny girl!
