## **Standing by Your Side**

## **Lee Fields & The Expressions**

I'll wait 'til you come home
'Cause the lovin' you give hurts like a broken bone
But it's all right, I can stand the pain
You been dead to rights

The court will understandOoh baby

I'm standing by your side

I'm standing by your side

I'm standing by your side

I'm standing by your sideLovin' her is worth the work

You take everything we had

And walk away like it ain't that bad

But it's all right, I can stand the pain

But the price we pay

Ain't worth all the timeOoh baby

I'm standing by your sideI'm standing by your side

I'm standing by your side

I'm standing by your sideLovin' her is worth the workStanding by your side

Standing by your side

I don't care how long it takes

I don't care how long I gotta wait

I don't care what I gotta do

The only thing I want baby

Is just to be with you

Standing by your side

Standing by your side

Standing by your side

Standing by your side
