

# Quitter

## Carrie Underwood

Here's how it goes  
Boy meets girl, girl leaves boy  
That's all I know  
All I've done, all my life 'Cuz throughout my history  
I've only been with jerks  
Who couldn't take it  
But you see the picket fence  
A swing on the front porch with us two on it  
When I believe that nothing lasts forever  
You stay with me, keeping us together  
And make me feel, like I never ever wanna give you up  
'Til now, I've always been a quitter You rescued me  
Saved my life, just in time  
Saw past all my issues and scars  
And made me try 'Cuz, ooh, the way you're kissing me makes it hard to breathe  
But I still like it  
Oh oh it truly feels like a dream  
You know exactly how I want it When I believe that nothing lasts forever  
You stay with me, keeping us together  
And make me feel, like I never ever wanna give you up  
'Til now, I've always been a quitter  
I've always been a quitter  
When I believe that nothing lasts forever  
You stay with me, keeping us together  
And make me feel, like I never ever wanna give you up  
'Til now, I've always been a quitter  
I've always been a quitter
