Our Demons (feat. Aja Volkman)

The Glitch Mob

No wonder, you're so stubborn Nobody ever made you dig deeper No wonder you've got demons Everything you ever did is coming back around I can't help you, if I'm weaker You took the honey from the queen bee keeper No wonder, you have demons Everyone's got a choice this time aroundAround No wonder, you're so stubborn Nobody ever made you dig deeper No wonder you've got demons Everything you ever did is coming back around I can't help you, if I'm weaker You took the honey from the queen bee keeper No wonder, you have demons Everyone's got a choice this time around Everything you ever did is coming back around
