

# On Fire Tonight

## Little Big Town

Something's in the air, blowing through the trees  
Got a fever in my bones, and something's calling me  
Calling all my friends, got them yearning to be free  
Turn this town upside down, watch and see[Chorus]

Yeah we gonna be on fire tonight  
Yeah we gonna get a little high off life  
Yeah we gonna have a damn good time  
Yeah we gonna roll, on and on  
Yeah we gonna sing all night long  
Yeah we gonna drink until it's gone  
Gonna bring it down in shining light,  
Yeah we gonna be on fire tonight

I don't need no harm, so don't misunderstand  
If you wanna let your trouble go, go on and take my hand  
There's an instrument... baby you're in love  
If you wanna come, pretty sure we tear it down tonight[Chorus]

Yeah we gonna be on fire tonight  
Yeah we gonna get a little high off life  
Yeah we gonna have a damn good time  
Yeah we gonna roll, on and on  
Yeah we gonna sing all night long  
Yeah we gonna drink until it's gone  
Gonna bring it down in shining light,  
Yeah we gonna be on fire tonight  
Gonna be on fire tonight, by the fire  
[Chorus]

Yeah we gonna be on fire tonight  
Yeah we gonna get a little high tonight  
Yeah we gonna have a damn good time  
Yeah we gonna roll, on and on  
Yeah we gonna sing all night long  
Yeah we gonna drink until it's gone  
Gonna bring it down in shining light,  
Yeah we gonna be on fire tonight.
