Kuntry & Wistern

[Koe Wetzel](#)

I think I've lost my fuckin' mind, at least that's what you told me
I think I must be goin' blind, your love's been hard for me to see
You said that everything was fine, then you pushed me off the edge
I think I've lost my fuckin' mind, won't you help me find it
Won't you help me find it, I think I've lost my fuckin'...Well, your best wasn't the best for me, I did
Just what you told me and that shit went dry
I picked up all the pieces from your lies and all your kisses
'Til your kisses started spittin' on what we built high
Don't try to say that I've been crazy
When all I've been is happy, all I've been is happy
I won't give up easy you should know after all
You're a bitch and I hate you, I think
I think I've lost my fuckin' mind, at least that's what you told me
I think I might be goin' blind, your love's been hard for me to see
You said that everything was fine, then you pushed me to the edge
I think I've lost my fuckin' mind, won't you help me find it
Won't you help me find it, I've lost my fuckin'...
Won't you help me find it
I think I've lost my fuckin' mind, that's what you told me
I think I must be goin' blind, your love's been hard for me to see
You said that everything was fine, then you pushed me to the edge
I think I've lost my fuckin' mind, won't you help me find it
Won't you help me find it, won't you help me find it...
