

Start It Up (feat. Casey Veggies)

Chaz French

Ok we gon flex it's my time
Ain't got none to waste go ahead and start it up
Ok it's my year from here on out
Said every year is gone be mine for the taken
Said ain't no doubts ain't no room for hate
If you gon slow me down you gotta get the fuck
Ok go get your life get in yo bag and start it up
That my word, live and learn, go ahead start it up, start it up, hey huhOk let me speak, time to
get this chicken, spend that there on everything
We can't take it when we leave, I got shit I need
I know money ain't happiness but I rather cry my heart out spending 50 g's
That's the shit I dreamed that's just what I seen
Live within your means never knew what that meant
Said you always gon find the snakes when you cut down that green
I know you turnt girl but don't spill that on my Gucci jeans
Keyshia kior, Gucci rings time to catch a wave
I know it's my season cause He answered when I prayed
Patience is what He said, said you gon really see who for you when your time is cut
Luckily I been down so long my shit just started up we probably never stop
If I said it then I meant it bitch that's all I got
They gon smile in your face til you tell them no
You say yes a million times that went out the door
That just comes with growth true colors now you know
Hey ok ok
Ok we gon flex it's my time
Ain't got none to waste go ahead and start it up
Ok it's my year from here on out
Said every year is gone be mine for the taken
Said ain't no doubts ain't no room for hate
If you gon slow me down you gotta get the fuck
Ok go get your life get in yo bag and start it up
That my word, live and learn, go ahead start it up, start it up, hey huhAw man damn I'm only
down if your bitch down
I make a mil with my ribs now
I'm ready to sit down on this side I catch your chick on the flip side
Rolling up grass we just getting by and she loving the way we get high
All these fuck niggas they dick ride
They love me from LA to the 6 side
Baby I bet you gon want me now we got love and now you don't come around
Getting money in another town when that dough come she don't make a sound
The city on my back yea I gotta get it
I got love for the people that's rockin with me that's why I been going hard

Yea I'm so committed yea nigga one thing about me ima go and get it
 Yea I swear she shaking she pulling my hair she poppin that ass in the air
 Shorty the way that you turn up I know you don't care
 I got some stripes in my plan my baby girl so bad I couldn't compare
 Price I'll pay it, taking fights nigga all in the lier
 Putting game in the air yea lil nigga this is my year
 Ok we gon flex it's my time
 Ain't got none to waste go ahead and start it up
 Ok it's my year from here on out
 Said every year is gone be mine for the taken
 Said ain't no doubts ain't no room for hate
 If you gon slow me down you gotta get the fuck
 Ok go get your life get in yo bag and start it up
 That my word, live and learn, go ahead start it up, start it up, hey huhUh yea ok we get it started
 on this side
 I'm only down if your bitch down
 But none of them ride like my bitch do
 Yea on Sunday baby girl my chick fila
 Before Instagram had it we been live
 I don't have no time for spare time
 Priorities poppin, the rent's due
 Only thing I'm focused on is getting paid
 Ain't no money problems I got spending habits
 But we getting to it ain't no way around it
 Ain't no need for lying I'm a living legend
 Took my leap of faith and I been steady flying
 I ain't picture perfect
 But I paint it clearly with the truest colors that you ever seen
 Iss a way that you go about everything
 But bitching about it dont change shit just start it upOk we gon flex it's my time
 Ain't got none to waste go ahead and start it up
 Ok it's my year from here on out
 Said every year is gone be mine for the taken
 Said ain't no doubts ain't no room for hate
 If you gon slow me down you gotta get the fuck
 Ok go get your life get in yo bag and start it up
 That my word, live and learn, go ahead start it up, start it up
