

Feeling Is Gone

Active Child

Take me back to the start
Before we ever fell apart
I was there
You were there And the feeling is gone
All is lost
Know that way you feel, the way before you know
Serenity
Just let it go
And the feeling is gone
If you're a shoulder to cry on
Oh oh oh
So we're alone You know because we're made
Just want to see is you're okay
I was there
You were there
But the feeling is gone
Say, my heart is torn
I ran from Paris back to Tokyo
Honestly, because the words remain
But the feeling is gone You know because we're made Just won't be alone
