

# Feeling Is Gone

## Active Child

Take me back to the start  
Before we ever fell apart  
I was there  
You were there And the feeling is gone  
All is lost  
Know that way you feel, the way before you know  
Serenity  
Just let it go  
And the feeling is gone  
If you're a shoulder to cry on  
Oh oh oh  
So we're alone You know because we're made  
Just want to see is you're okay  
I was there  
You were there  
But the feeling is gone  
Say, my heart is torn  
I ran from Paris back to Tokyo  
Honestly, because the words remain  
But the feeling is gone You know because we're made Just won't be alone
