Feeling Is Gone

Active Child

Take me back to the start Before we ever fell apart I was there You were thereAnd the feeling is gone All is lost Know that way you feel, the way before you know Serenity Just let it go And the feeling is gone If you're a shoulder to cry on Oh oh oh So we're alone You know because we're made Just want to see is you're okay I was there You were there But the feeling is gone Say, my heart is torn I ran from Paris back to Tokyo Honestly, because the words remain But the feeling is goneYou know because we're madeJust won't be alone
