

Chasm

Flyleaf

Break up already, wake up now
Walk away, take it all back now
Don't be quick to lick the scab off
You're spitting in his face with the rest of them
Break up already, wake up now
Walk away, take it all back now
Don't be quick to lick the scab off
You're spitting in his face with the rest of them...
Please, give me something

...

I'm so thirsty, I'm so thirsty

...

Oh please, let me warn them

...

Don't you come here
Don't bring anyone here

...

The chasm isn't fixed yet
Take this water
Drinking ever deeperLiving water
The chasm isn't fixed yet
Take this water
Drinking ever deeper
Living waterPlease, give me something

...

I'm so thirsty, I'm so thirsty

...

Oh please, let me warn them

...

Don't you come here
Don't bring anyone here

...

Help, help, help, help, help, help

...

Please, give me something

...

I'm so thirsty, I'm so thirsty

...

Oh please, let me warn them

...

Don't you come here
Don't bring anyone here
