

# Cirrus

## Bonobo

breathe  
all the things that matter let them out  
stress  
stress  
that's nonsense  
thats nonsense  
art isnt thinking  
it happens  
you feell it  
its magic  
stress  
sstress  
stress  
thats nonsense  
thats nonsense  
art isnt thinking  
it happens  
you feel it  
its magic  
stress  
stress  
stress  
thats nonsense  
art isnt thinking  
it happens  
you feel it  
its magic  
stress  
stress  
stress  
thats nonsense  
art isnt thinking  
it happens  
you can be sitting your room in tears wondering who the fuck you are  
and all it takes is boom  
hello world  
allive  
magic  
thats some real shit  
some real shit  
some real shit  
music makes you feel that way

you feel that  
thats some real shit  
some real shit  
some real shit  
some real shit  
some real shit  
music makes you just feel  
you feel  
you feel  
let it all go  
let it all go  
dance it out  
dance it out  
dance it out  
breathe it all in  
breathe it all out  
MUSIC MAKES YOU WANNA DANCE  
breathe it all in  
dance it all out  
dance it all out  
TAKE IT ALL IN  
shake it all out  
shake it all out  
feel it  
you feel that  
take it all in  
take it all in  
shake it all out  
art isnt thinking  
it happens  
it happens  
some real shit  
some real shit  
some real shit  
breathe it all in  
shake it all out  
the music you feel it  
the ups the downs the highs the lows its all okay its crazy how the second you are away from  
the craizness that it goes away  
you feel it?  
you hear it?  
you see it?  
then be it  
then be it  
shake it all out  
dance it all out  
dance it all out  
you feel it?
