

Body Sun (Claptone Remix)

[RY X](#)

[Verse 1]

Caught in hope for my mind is heading out
Hardly know you, but the signs are all pretty loud[Chorus]

Get you caught in my mind, hear you calling

My body sun, my body sun

Get you caught in my mind, feel you falling

My body sun, my body sun[Verse 2]

Did it cross your mind? Hold your breath to lead you here
Did it close your eyes and fill your mouth and melt you near?[Chorus]

Get you caught in my mind, hear you calling

My body sun, my body sun

Get you caught in my mind, feel you falling

My body sun, my body sun

[Bridge]

My body sun, my body sun

My body sun, my body sun

My body sun, my body sun

My body sun, my body sun

My body sun, my body sun

My body sun, my body sun

My body sun, my body sun

My body sun, my body sun

My body sun, my body sun

My body sun
