

# Pendulum

Harry Hudson

Like raindrops when the sun shines  
Like a low life with a good high  
When the fireplace?don't?work rightWe lost?our spark on a cold night  
YeahFell?in love at my own expense  
You say my love can't pay your rent  
I was belly broke now I'm hungry rich, yeah  
Can't be lovers if we can't be friends, mmm-hmm  
Used to want your love, now you make me sick  
In the sky  
Where I put you then 'til you crash-landed  
By my side  
Showed me your true side, time to call it quits  
Guess it's done  
No more back and forth like a pendulum  
Let it swing, yeah, yeah, yeah  
Let it swing, yeah, yeah, yeahYou hear me but don't listen  
A lips touch ain't kissing  
That's why I've been distant  
I asked for paper-thin wishes  
You tore them up that instant  
That's where this story ended, uh-huh  
Fell in love at my own expense  
You say my love can't pay your rent  
I was belly broke now I'm hungry rich  
Can't be lovers, can't be friends, oh-hoUsed to want your love, now you make me sick  
In the sky  
Where I put you then 'til you crash-landed  
By my side  
Show me your true side, time to call it quits  
Guess it's done  
No more back and forth like a pendulum  
Let it swing, yeah, yeah, yeah  
Let it swing, yeah, yeah, yeah  
Yeah, yeah
