

# Our Special Love (feat. Peter Hollens)

Brian Wilson

Bet you wish it really didn't matter  
All along you never really had her  
She's your everything  
Keeps you wondering Doesn't matter where we are  
Doesn't matter where we've been  
I can't believe it's gone this far  
I can't believe what's happening Tell me why, down deep inside  
Girl you gotta know  
That there's a part of you and me  
That I just can't let go  
Fly away (Fly away)  
Nothing, but nothing  
Could ever stand in our way A special love can't be found anywhere in the world  
Except for here, that's where you are  
What I'm thinking of can't be found anywhere in the world  
Except for here, that's where you are If you knew that you would fall when you first met her  
Now she's gone and you just can't forget her  
How'd your everything leave you wondering Fly away (Fly away)  
Nothing, but nothing  
Can stand in our way A special love can't be found anywhere in the world  
Except for here, that's where you are  
What I'm thinking of can't be found anywhere in the world  
Except for here, that's where you are  
Bet you wish it really didn't matter  
All along you never really had her  
She's your everything  
Makes you wanna sing
