

Stay

Little Big Town

How can I bear to wake up and you're not there

What will I do when I turn and reach for you

I'll lay my tears on the windowsill

I'll only cry till i get over you

But how long will that take me

Won't you save me... and(Chorus:)

Stay

Just a little bit longer

Till I'm a little bit stronger to take all this

Stay

Just a little more time

Till I can find a way

Please stay

Will I ever smile again

When loosing love takes my best friend

To wonder where, wonder how

Wonder what you're doing

One more night just before you break me

Hold me safely(Chorus)

So I'll be a big girl, and just close my eyes

As you walk away don't say goodbye

God save me

Please won't you(Chorus)
