

Climb

Jacob Latimore

You're fantasizing, you're mesmerizing
When you send me pictures I get so excited
And oh, I can't hold back, no
It's just your eyes and when we vibin'
Can't remember the last time that we were fighting
And oh, gonna have a heart attack
'Cause girl you bad, girl you bad I like the feeling when you know you feeling sexy
In the bedroom girl I know you can impress me
And when we lay down, lay down
And I start from the bottom I just can't wait to climb, climb, climb, climb
You give the best love ever
And it don't get no better
Than when I climb, climb, climb, climb
You give the best love ever
And don't stop now no never
Oh it's just us ain't in no rush
Wrap your legs around my waist under the covers
Let's make love till the sun comes up
The way you move all I want to do is turn you around
I wanna be behind you
Our love nobody can touch
They ain't got nothing on us I like the feeling when you know you feeling sexy
In the bedroom girl I know you can impress me
And when we lay down, lay down
And I start from the bottom I just can't wait to climb, climb, climb, climb
You give the best love ever
And it don't get no better
Than when I climb, climb, climb, climb
You give the best love ever
And don't stop now no never
I want it all, I need all your fantasies
Please don't be shy right now it's just you and me
Anticipating all your wants and your needs
I aim to please I been waiting all day to climb
So I'm gonna take my time
Baby this might take all night
Are you ready? I just can't wait to climb, climb, climb, climb
You give the best love ever
And it don't get no better
Than when I climb, climb, climb, climb
You give the best love ever

And don't stop now no never
