

# All Your Days

## Shallou & Emmitt Fenn

We could be together like a clock  
Take our time and make it ours  
We could be something they're not  
We could climb a hill and look at stars  
They say stars are way too far  
But I know right where you are  
But all my friends they keep asking  
"How do you spend, all your days by her side?"  
And I just said, "I love her till I die"  
Your friends they keep asking  
"Do you want to spend, all your years by his side?"  
And you just said, "I will never say goodbye"  
We could fill the space that's in between  
Hide away under the sheets  
Take a day just you and me  
And we could stay up late and watch TV  
We don't have to see the screen  
Just talk until we fall asleep  
But all my friends they keep asking  
"How do you spend, all your days by her side?"  
And I just said, "I love her till I die"  
Your friends they keep asking  
"Do you want to spend, all your years by his side?"  
And you just said, "I will never say goodbye"  
Will never say goodbye  
Will never say goodbye
