warm (feat. Raury)

The Neighbourhood

You need to get off my mind...I'm never satisfied It's never good enough

I always seem to find the right,

Formula for putting up, yeahI tried to love you, baby

In every way, in every way

I tried to satisfy you, honey

But you wouldn't stay, you wouldn't stayI'm like a clover and rye

You hang it out on me

If I really want to find someone else,

I'll find some company

Hey-yeah

I'm in a hurry out, wouldn't worry about a little hiccup

Why can't you see?

Why can't you see, that I am sick of it allI tried to love you, baby

In every way, in every way

I tried to satisfy you, honey

But you wouldn't stay, you wouldn't stayI tried to love you, baby

In every way, in every way

I tried to satisfy you, honey

But you wouldn't stay, you wouldn't stay(I knew it was wrong, but I thought about you

still)Girl, I do not know

Where you're running to

I'm your finish, line,

I'm the one for you

If you do me wrong,

If I'm cruel to you,

You're a fool for me,

I'm a fool for youShawty been talking about her new options,

But options do not mean that they're competition

The master key perfectly fits your ignition

Forever under the greatest possession

You are not foreign at all to this sentence

Hopefully this is the first time you did this shit
