Anna (Moonlight Matters Remix)

Charlotte Gainsbourg

Anna, Take me back to the home Anna, Once I knew it's getting bornI've been in the world Now had to sing Still I could hear Your voice calling inTakes too long To forget you If I'd known to stay Too long To forget you I'm still waiting for a chance Anna, All I see is your face Anna, Same great heart still awayI want you to know

reat heart still awayI want you to knot I was so young then Don't wanna feel On my own again Takes too long To forget you If I'd known to stay Too long To forget you If m still waiting for a chance
