

# The One You Love (feat. Kate Miller Heidke)

## Passenger

We're all looking,  
That's what she said  
For someone to share our thought's,  
For someone to share our bed's  
But if you find someone  
That doesn't try to change you  
And if you find someone  
That doesn't have to blame you  
And you find someone  
You don't need to explain to,  
You've found the one you love  
We're all searching, that's all I know  
For someone to keep us warm,  
When the rain soaks through our clothes  
But if you find a hand to hold  
When the night comes,  
To be there when your old  
And you're frightened  
If you find someone  
That loves you with a love song,  
You've found the one you love  
So hold it near,  
'Cause love it comes so quickly  
And then it goes  
And be careful my dear  
'Cause the very thing that makes you  
Will be the thing that breaks you,  
You know  
Oh, and if you find someone  
That doesn't undermine you  
If you find someone  
That doesn't drag behind you  
If you find someone  
That loves you just like I do,  
You've found the one you love
