

# The Twist

Sam Cooke

come on baby, let's try that twist  
come on baby, let's try that twist  
let me take you by the hand honey  
and it goes like this all you got to do is, go round  
everybody's doing it, baby, go round mother's just sleeping  
daddy ain't around  
mother's upstairs sleeping  
daddy ain't around  
we're gonna twist, that's twistin'  
till we tear the house down  
one more time  
go round,  
oh you're looking good to me  
go round  
everybody twistin'  
don't be ashamed  
go round  
one more time  
you should see my little miss  
you should see my little sis  
she ain't very old  
but she's trying to do that twist  
look at her trying to go around  
she's going around  
everybody's goind around and aroundround and roundaround and around
