

Nice Girl

Syence

You sleep with your silence
You act like you like it
No one'll buy the gold you're showing
Cuz you
Die for the drama
That cute little trauma
Better to fight than lay down hoping Someone could save you but they won't
Hate partying on sinking boats
You would rather keep your clothes dry
You're pretty sharp around the edge
You cut the dreams right out your head
Never good at keeping friends
You're not a nice giirl
You're in your own world
But I won't blame you no
I won't try to change you no
Cuz you're not a nice giirl
No you're not a nice giirl Oh who did you dirty
Did they leave in hurry
With the girl from the bar
He swore he'd forget
There's nothing wrong with solo
That's something that you should know
There's beauty in the let go, just let go let go go Someone could save you but they won't
Hate partying on sinking boats
You would rather keep your clothes dry
You're pretty sharp around the edge
You cut the dreams right out your head
Never good at keeping friends
You're not a nice girl
You're in your own world
But I won't blame you no
I won't try to change you no
Cuz you're not a nice giirl
No you're not a nice giirl
You're not a nice giirl
