Shredding Sacred Flesh

Skeletonwitch

The heavens bleed with fire
Demons sent forth from Hell's domain
Darkness, unleash the will of Satan
Dead, this kingdom of decayBurned and beheaded, the remains of angels
Unholy Legions, shredding sacred flesh
Slaughter of the righteous
Destruction of the holy

Monstrous perversion, wickedness

Drink the blood of the crucified angels

Praise the name of the unmerciful goat

Rip the heart from the soul of the innocent

Hang them from the cross around their throatCurse the light, now become of the darkness

Bewitch the heavens under evil's spell

Decimate sacred spirits of divinity

Torch the heavens with the flames of Hell

Drink the blood of the crucified angels

Praise the name of the unmerciful goat

Rip the heart from the soul of the innocent

Hang them from the cross around their throatThe heavens bleed with fire

Dead, this kingdom of decay
