## Friends (feat. Tom Morello)

## **Raury**

I made a friend in California I made a friend in Venezuela A broken home but he's okay-kay-kay-kay-kay-kay-kay-kay I made a friend in New York City I haven't heard from him in days-days-days-days-days-days-days-I made a friend in North Korea Together At peace, at peace, we are Forever I walked along the Himalayas I never made it to the peak-peak-peak-peak-peak-peak-peak I walked the greatest wall of China I spent a week in the Sahara I spent a decade lost at sea-sea-sea-sea-sea-sea-sea-And I was never disappointed Together At peace, at peace, we are ForeverSing it loud! Shout it to the world! You are the future, let 'em know That you know, forever! You see a broken man, take 'em by the hand And just help them understand, uh-nah-ah-cha I said you see a broken man, take 'em by the hand And just help them understand, uh-nah-ah-cha I said you see a broken man, take 'em by the hand And just help them understand, uh-nah-ah-chaI have some friends who are the future They need this world much more than me
