

# Complicated

## Magnapop

[VERSE 1:]

So look at me now  
It's a quarter pass 3, I won't sleep  
Cause you walk through my dreams every night  
So why did I change  
I never thought cupid could win  
Change the way that I been all my life[PRE-HOOK:]  
I just wanted to be  
Never wanted to fall... ya know  
But you just got me  
It's not intentional  
Can I be over you  
Or will I just lose control  
(You got it, got it, You got it bad)  
Am I ready for this  
Or has my heart taken over my mind  
Can I commit  
Or should I just press rewind  
Is this my cue  
Or maybe this a warning sign  
(You got it, got it, you got it bad)

[CHORUS:]

This love is so complicated  
It's so complicated  
It's so complicated  
And sometimes I hate it  
It's so complicated  
It's so complicated  
It's intoxicated  
I think I might be falling in love  
[x2]

[VERSE:]

So picture me now  
I'm stuck in a room  
Painting images of you  
Trading colors for your smileOohhh  
But I can't let it show  
So I'm holding it in  
Trying harder to pretend  
But am fronting all the while[PRE-HOOK:][CHORUS x2][BRIDGE:]  
If I don't react, would she give me up  
Would she change or lose attention

O... the faith I lack... has me missin' so much  
Am I wrong for my ommission  
Why did I neglect what I knew from the start  
Did I lose my intuition  
When I just wanna say... I love her everyday[CHORUS][VAMP OUT:]  
I'm thinkin'... I'm fallin
