

# I Know How the River Feels

## Diamond Rio

They say for everyone, there's that certain one  
Out there, somewhere  
I'd been looking hard, searching every heart  
Getting nowhere  
Didn't know I was making my way to you Now I know how the river feels  
When it reaches the sea  
And finally finds the place  
It was always meant to be  
Holding fast, home at last  
Knowing the journey's through  
Lying here with you  
I know how the river feels  
Miles of loneliness, now make perfect sense  
Here beside you  
Tears like water fall, it was worth it all  
Just to find you  
And yours are the last arms I'll run to Now I know how the river feels  
When it reaches the sea  
And finally finds the place  
It was always meant to be  
Holding fast, home at last  
Knowing the journey's through  
Lying here with you  
I know how the river feels  
Holding fast, home at last  
Knowing the journey's through  
Lying here with you  
I know how the river feels  
Oh, I know how the river feels
