

Speechless (feat. Erika Sirola) [Extended Mix]

[Robin Schulz](#)

I remember how it all started
[?] till the summer was over
And I didn't [?], it felt so big then
We're only reaching stars
And I am a big black star
And you said to me If you love me, then say you love me
And you are mine
Hey come on darling, stop the hiding
Speak your mind Woah, I loved you
But you left me speechless then
Say if you love me, then say you love me
And you are mine
I remember how it all started
[?] till the summer was over
And I didn't [?], it felt so big then
We're only reaching stars
And I am a big black star
And you said to me If you love me, then say you love me
And you are mine
Hey come on darling, stop the hiding
Speak your mind Woah, I loved you
But you left me speechless then
Say if you love me, then say you love me
And you are mine You left me speechless
Speechless
You left me speechless
You left me speechless
Speechless
You left me speechless
Speechless So if you love me, then say you love me
And you are mine
Hey come on darling
Speechless
