## **Everythang's Corrupt**

## **Ice Cube**

Everythang's fucked up

Everythang's 'bout to buck me shit out of luck

Go to school

The teacher want to fuck the students

Go to church

My preacher turn to prostitution

The prosecution never read my files

That evil ass judge fell asleep at my trial

Chickens getting sick as the cows

Birds falling out the sky, fish dying in piles

Politicians smell like my balls

Politicians smell like my balls
Talking that shit will he cripple my styles
I got many

Now I'm pinching pennies, no doubt
I squeeze Lincoln so hard
A fucking booger came out
It's a shame

I used to be on top on my game
They took the shirt off my back, and replaced it with chains
I met Mr. Lee Harvey, from the "Tea Party"
He used to hate Obama 'till he felt Hurricane Charlie

Looking for his FEMA Check It's gone with the wind When them dicks is in You know the fix is in

For my birthday, buy me a politician It's a shame that you got to dish your children Everythang's fucked up

Everythang's bout' to buck me shit out of luck Everythang's a scam

Beat the next man, that's capitalism
They'll just, built a new prison
For your slick ass niggas

That's trying to beat the system
Put you on the front line
If you ain't re-enlist in this
It's hot, in hells kitchen

Get ready, for the lynching brainwash media
And puppet politician
Keep out of position
Out of commission
Buy, medicine or food

That's not a decision
Is mad and trying to vent
Police grab my fucking arm, then they got bent
The interest on my credit card
The U.S. Mint

I heard they about to print But it's fucked up, cause I won't see a cent

I'm sick of getting ignored

This wall I can't afford

I'm going to the pent

Free room, free ward, bitch

It's a wall of confusion

My niggas stay losin'

I know what ya' doin'

My bitches be choosin'

Them thugs be cruisin'

They love what you doin'

My niggas they losin'

I know what ya' doin'

My bitches be choosin'

Them thugs be cruisin'
