

Make It Good

Shift K3Y

Tonight is the night I'll make a move
Tell your girl it's alright, I've waited too long
Tonight is the night I'll make it good
Tell your girl it's alright, I know it's alright
Tonight is the night, tonight is the night
Tonight is the night, tonight is the night
Tonight is the night
Tonight is the night I'll make a move
Tell your girl it's alright, I've waited too long
Tonight is the night I'll make it good
Tell your girl it's alright, I know it's alright
Tonight is the night I'll make a move
Tell your girl it's alright, I've waited too long
Tonight is the night I'll make it good
Tell your girl it's alright, I know it's alright
Tonight is the night, tonight is the night
Tonight is the night, tonight is the night
Tonight is the night
Tonight is the night, tonight is the night
Tonight is the night I'll make a move
Tell your girl it's alright, I've waited too long
Tonight is the night I'll make it good
Tell your girl it's alright, I know it's alright
Tonight is the night I'll make a move
Tell your girl it's alright, I've waited too long
Tonight is the night I'll make it good
Tell your girl it's alright, I know it's alright
Tonight is the night I'll make a move
Tell your girl it's alright, I've waited too long
Tonight is the night I'll make it good
Tell your girl it's alright, I know it's alright
Tonight is the night, tonight is the night
Tonight is the night, tonight is the night
Tonight is the night
