

Let Me Take You (feat. Jeremih)

Whethan

Let me take you to a place
I know you wanna go, girl, we should go there
All I wanna do is be with you around nobody and you know that
Don't know if you know this,
but you might get chosen
Never wanna see you lonely, hold on girl, you know we on
Make me wanna spend my millions
They can't tell me what I'm feelin'
They can't tell me what I'm feelin'
Ooh

Let me take you on a whirlwind
Let me take you on a
Let me take you
Let me take you to a place you know you wanna go
Let me take you on a whirlwind
Let me take you on a
Let me take you
Let me take you to a place you know you wanna
Let me take you to a place
I know you wanna go, girl, we should go there
All I wanna do is be with you around nobody and you know that
Don't know if you know this, but you might get chosen
Never wanna see you lonely, hold on girl, you know we on
Make me wanna spend my millions
They can't tell me what I'm feelin'
They can't tell me what I'm feelin'
You all I want, you all I want
You all I want, you all I want
Let me take you to a place
I know you wanna go, girl, we should go there
Let me take you on a whirlwind
Let me take you on a
Let me take you
Let me take you to a place you know you wanna go
Let me take you on a whirlwind
Let me take you on a
Let me take you
Let me take you to a place you know you wanna
