## Cavity

## **Hundred Waters**

There's a man walking With a rope and a shovel in his hand And he's digging, he's digging Down to clay I lean back and watch the ceiling swayBut you make these feelings go away You love who floods Seeing him's easy when no one's around Finding him's easy when all that you've found Are gardens and sirens both move to the sound Of little worms writhingBut you make these feelings go away You love who floods So come then come over and sit by me Follow the arrow following me Nothing to fill in, nothing to free Nothing here love but a cavitySwallow the arrow following me Nothing to fill in, nothing to free Nothing here love but a cavity
