

CRB Check (feat. Not3s)

Chip

I gotta protect my heart
I gotta protect my heart
Quick CRB check to pree up your history
Hope my boys ain't been there in the past
I gotta protect my heart
I gotta protect my heart
Quick CRB check to pree up your history
Hope my boys ain't been there in the past
Line poppin' like a trapper
And she know every rapper
But even if I trust her
I can't trust these rappers
I pray to God to protect my past
There ain't no con not to put on my heart
Like no, no, no, no
I ain't say she a hoe
But she be backstage
At like nearly every show
She just want a young fly nigga with some dough
Man I wouldn't be surprised
If I heard she linkin' Not3s
Had a good girl she told me lies as well
Two twos I started telling lies as well
Young nigga living my life put my hood in tonight
Put my heart in
The time will tell
Zubi and Maggie having a epiphany
I get rid of her now she ain't getting rid of me
I had enough of this girl
Man she taking liberties
I said come and chill with me
She said I'm going Liberty
I gotta protect my heart
I gotta protect my heart
Quick CRB check to pree up your history
Hope my boys ain't been there in the past
I gotta protect my heart
I gotta protect my heart
Quick CRB check to pree up your history
Hope my boys ain't been there in the past
Yeah
Man I bubble in the game
Make another banger man
It's bubble through the pain

Heart broke once
Now can't break again
So even though she trouble
I might trouble it again Hittin' up her phone
I'm like "Baby where you at?"
Missing all my texts but she hittin' me on snap
Heart on my sleeve
But it's hidden in my taps
(Tss)
No time for girls like that
That's why I love my down arse ting
Just hits me on WhatsApp
No Facebook
No Insta
No Snapchat
Wantin' for this gyal One mega backchat
Perm me on mouth
My girl, just relax that
Having a epiphany
I get rid of her now she ain't getting rid of me
I had enough of this girl
Man she taking liberties
I said "Come and chill with me"
She said "I'm going Liberty" I gotta protect my heart
I gotta protect my heart
Quick CRB check to pree up your history
Hope my boys ain't been there in the past
I gotta protect my heart
I gotta protect my heart
Quick CRB check to pree up your history
Hope my boys ain't been there in the past Yay, I stay
You can go link another man
I'm up so I always have the upper hand
Man I saw her as potential wifey before
But these rappers already put paps on her wall
Don't stay
Go and link another man
I'm up but I've always had the upper hand
And I saw you as potential wifey before
But rappers already put paps on her wall I gotta protect my heart
I gotta protect my heart
Quick CRB check to pree up your history
Hope my boys haven't been there in the past
I gotta protect my heart
I gotta protect my heart
Quick CRB check to pree up your history
Hope my boys haven't been there in the past
