

My Kind of Man

Vance Joy

Don't walk too proud, don't talk too loud
And make it up as you go
And take whatever you're given
And leave what you think you know
At the door As she said
You could be my kind of man
Will you do the best you can
And I could use a little time
I need to straighten on my mind
And I'm gonna break on, break on through
And I close my eyes and think of you
What you said
You could be my kind of man
Will you do the best you can
Find a thing that you love
Find a thing you understand
Find a thing that you love
Find a thing you understand You could be my
You could be my
You could be my kind of man
You could be my
You could be my
You might be my kind of man
Find a thing that you love
Find a thing you understand
Find a thing that you love
Find a thing you understand
