

# Nowhere Fast

## Old Dominion

Grass stained bare feet  
Dove in my front seat  
Windshield full of road to run  
And a gas tank full of freedom  
Red sky faded to black  
A couple cans deep in a six pack  
World disappearing around us  
Temptation always found us  
With beer on our breath in a parking lot  
Kill the headlights so we wouldn't get caught  
Radio glow on the dash  
We were messin' around  
We could hardly breathe  
Breakin' new ground in my back seat  
We had our foot on the gas  
Goin' nowhere fast  
One summer of sunsets  
Was as far as we were gonna get  
So caught up in how it feels  
We didn't care if we were spinnin' wheels  
With beer on our breath in a parking lot  
Kill the headlights so we wouldn't get caught  
Radio glow on the dash  
We were messin' around  
We could hardly breathe  
Breakin' new ground in my back seat  
We had our foot on the gas  
Goin' nowhere fast  
Yeaah  
With beer on our breath in a parking lot  
Kill the headlights so we wouldn't get caught  
Here and gone in a flash  
Yeah  
We were messin' around  
We could hardly breathe  
Breakin' new ground in my back seat  
No way to know if it would last  
But we had our foot on the gas  
Goin' nowhere fast  
Goin' nowhere fast
